

The Standard Response Protocol (SRP) and Standard Reunification Method (SRM) One-Day Reunification Exercise (REx)

This training introduces the concepts and history of the SRP and the SRM and how to educate students and staff in the programs and strategies to implement the programs.

This One-Day workshop takes a deep dive into what both of the programs are and how to begin using them, including a brief segment on incident command and how it relates to crisis management for educators, and functional reunification exercises. All stakeholders in reunification are encouraged to take part in this exercise including district and school staff, public safety, emergency managers, mental health professionals, and community leaders.

Enrollment is limited to Illinois based police, fire, EMS, EMA and educators (schools).

SRP AND SRM 1-DAY REX DATE:

June 4, 2026

REGISTRATION DEADLINE:

May 31, 2026

REGISTRATION PIN (CASE SENSITIVE):

BL26SRPM
